The Overseas Export Promotion Calendar provides a fifteen month schedule of events sponsored by the U.S. Department of Commerce. These events consist of exhibitions in U.S. Trade Centers and in International Trade Fairs, Trade Missions, Seminar Missions and other promotional activities (Glossary of Terms, page vii).

The Calendar is issued quarterly by the Bureau of Export Development. It also includes promotion events programmed by the Bureau of East West Trade (BEWT).

It should be noted that the Calendar also contains listings of events that are scheduled on a tentative basis. Information regarding the current status of these events can be obtained by communicating with the appropriate Country Marketing Manager, as set forth in the telephone directory on the back cover.

Additional copies or regular distribution of this publication can be obtained by writing to U.S. Department of Commerce, Bureau of Export Development, Room 4009, Washington, D.C. 20230.

INTERNATIONAL MARKETING INFORMATION SERIES

This report is one of a series of Bureau of Export Development publications focusing on foreign market opportunities for U.S. suppliers. The series is made available by the Bureau's Office of International Marketing in cooperation with the U.S. Foreign Service-Department of State. Most reports are based on research conducted by overseas contractors under U.S. Foreign Service supervision or by economic and commercial officers of the Foreign Service or Department of Commerce.

Some of the data in this series is reproduced in its original unevaluated form and the distribution of this document does not necessarily imply the concurrence of the Department of Commerce in the opinions or conclusions contained therein.

As part of its marketing information program, OIM makes available to the U.S. business community, on a continuing basis, eight types of publications and reports.

1. Global Market Surveys: In-depth reports covering 20-30 of the best foreign markets for a single U.S. industry or a group of related industries.

2. Country Market Sectoral Surveys: In-depth reports covering the most promising U.S. export opportunities in a single foreign country. About 15 leading industrial sectors are usually included.

3. Producer Goods Research: In-depth reports covering the best foreign sales opportunities for a single U.S. producer goods industry, or group of industries.

4. Consumer Goods Research: In-depth reports covering the best foreign sales opportunities for a single U.S. consumer goods industry, or group of industries.

5. International Marketing Newsmemo: Information bulletins received directly from the U.S. Foreign Service, reports prepared by U.S. businessmen or Department of Commerce officers, and usually distributed unedited. They cover a wide variety of industries, products, and countries.

6. Overseas Business Reports: Reports that include current and detailed marketing information on all of our leading trading partners. Most are revised annually.

7. Foreign Economic Trend Reports: Annual or semiannual reports prepared by the U.S. Foreign Service that cover, individually, almost every country in the world.

8. International Marketing Events: Brief market summaries in support of trade promotion events organized by the Office of International Marketing. Also, detailed calendars of upcoming events.

To supplement and up-date the marketing information available in this series, and for specific ordering information, we suggest that you telephone the nearest Department of Commerce District Office or the Country Marketing Manager responsible for the area or areas in which you are interested.
